

ROUTE 242 MEDIAN WIDENING

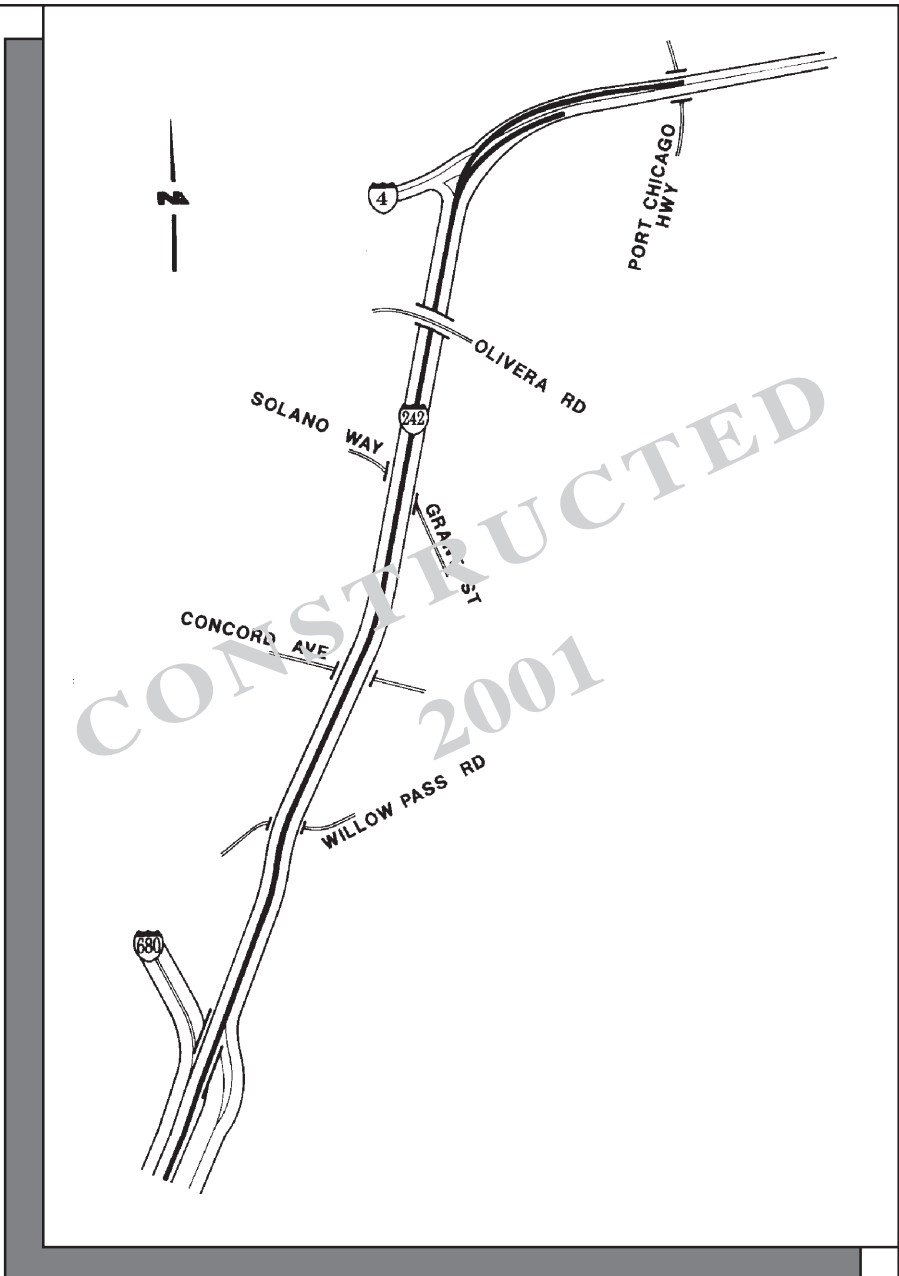

PROPONENT:
CONTRA COSTA TRANSPORTATION AUTHORITY

PROJECT NO:
1113/1113C

DESCRIPTION:
 This project widened 3.4 miles of existing State Route 242 from four to six lanes from I-680 to State Route 4. The improvements included widening the roadway by decreasing the median width to allow for one additional lane in each direction, constructing drainage improvements, building soundwalls and restriping.

Right-of-way acquisition was not required, since all widening occurred within existing State right-of-way.

STATUS:
 Construction completed in early 2001.

FUNDING SOURCES (\$ X 1000):

HB 311	500.0
Measure C (Esc.\$) ^{1,2}	<u>33,064.0</u>
TOTAL	\$ 33,564.0

¹ Measure C funds shown in escalated dollars. Actual commitment is in 1988 dollars as shown in Appendix A.

² Funding from both the I-680 and commuterway project categories.
