

SANTA MARIA INTERSECTION IMPROVEMENTS

**PROPONENT:
ORINDA**

**PROJECT NO:
1623/1623SW**

DESCRIPTION:

The project includes the review of traffic volumes and movements along Camino Pablo, extending northerly from Highway 24 to the Santa Maria Way intersection. The study will develop recommendations to improve the operations of the off ramp and the two intersections and will prepare financial plans on how they will be funded. The recommendations may include the addition of a second lane on northbound Camino Pablo to westbound SR 24 off ramp, signal coordination along Camino Pablo between Santa Maria Way and Camino Encinas, in addition to other improvements.

STATUS:

Project has not started.
