

MORAGA TRAFFIC STUDY

**PROPONENTS:
MORAGA**

**PROJECT NO:
1620**

DESCRIPTION:

The purpose of this traffic study is to examine the likely impacts of alternative residential and commercial development in Moraga on traffic density between Moraga and Highway 24.

Through the study, the Town of Moraga will examine whether 1) alternatives to single-family housing, such as workforce housing and student housing, and 2) additional business/retail development intended to serve local Moraga market would reduce the traffic density on roads linking Moraga to Hwy 24.

STATUS:

Study was completed in March 2010.

FUNDING SOURCES (\$ X 1000):

Measure C (Esc.\$) ^{1,2}	210.9
TOTAL	\$ 210.9

¹ Measure C funds shown in escalated dollars. Actual commitment is in 1988 dollars as shown in Appendix A.
