

MARTINEZ INTERMODAL FACILITY PARKING EXPANSION (Phase 3)

**PROPONENT:
MARTINEZ**

**PROJECT NO:
2208A**

DESCRIPTION:

Parking at the Martinez Intermodal Transit Facility is proposed to be expanded from the current 175 parking spaces to 600 spaces to accommodate current and future demand. Phase 3 work includes additional land acquisition north of the tracks, new road access to the north lot (both east and west), addition of 425 parking spaces and construction of a pedestrian bridge over the tracks. Measure C funds will be used to initiate Phase 3 by completing work such as preliminary engineering, environmental document updates, right of way appraisals and project management.

STATUS:

The right-of-way clearance phase is now complete.

FUNDING SOURCES (\$ X 1000):

Measure C (Esc.\$) ¹	243.6
STIP	5,500.0
Measure J	<u>6,000.0</u>
TOTAL	\$ 11,743.6

¹ Measure C funds shown in escalated dollars. Actual commitment is in 1988 dollars as shown in Appendix A.
